(State & ZIP)

The Virginia Retail Sales and Use Tax Act provides that the Virginia State 4% sales and use tax shall not apply to heating oil, artificial or propane gas, firewood or coal used for domestic consumption. The term domestic consumption means use by an individual purchaser for other than business, commercial, or industrial consumption. Domestic consumption does not include purchases by: 1) nonprofit churches, civic or charitable groups; 2) profit hospitals, nursing homes or homes for adults; 3) profit schools or institutions of learning; 4) lessors of apartments, trailer courts, condominiums, rooming houses, or other multi-family dwellings; 5) fraternities or sororities; 6) hotels or motels; 7) businesses operated by nonprofit groups, or; 8) any commercial, business or industrial operation. The use tax must be paid to the State by any purchaser who uses any portion of the fuel purchased under this exemption certificate in a taxable manner.

The local 1% sales and use tax will continue to apply to all purchases for domestic consumption of artificial or propane gas, firewood, coal, and home heating oils unless: 1) the locality in which the Virginia dealer is located adopts an ordinance specifically exempting such fuels; or 2) in the case of sales by out-of-state dealers, the locality in which the Virginia customer lives adopts such an ordinance.

This exemption certificate is applicable only for purchases of fuel to be used primarily (more than 50% of total use) for domestic consumption and applies only to purchases made by the undersigned individual for use at the address listed. Persons maintaining more than one residence must complete a separate certificate for each residence.
