SHOW FEEDS

FEED WITH A PURPOSE

\$1 from each bag goes to the Rockingham Cooperative 4-H/FFA Youth Livestock Support Fund

and matched, dollar for dollar, to support 4-H & FFA members in our service area

Amino Power Show Steer Feed is a 13% sweet textured feed that is going to bring your cattle to the next level. What separates this show feed from others in the marketplace is the synergistic blend of high-quality ingredients amino acids. Distillers, roasted beans, canola, and Amino Plus makes for a quality blend of more digestible protein that is more readily available. Because of this combination of more available amino acids paired with roasted corn this is the fortified and successful solution to feeding your show cattle.

SKU: RMRCW129A

RETAIL*: \$12.83

Amino Power 17% Show Hog pellet is going to separate your hog from the rest of the class. Using a new and advanced amino acid combination, muscle and power will be built quickly while definition and expression of muscle will become more prominent. Performance will impress and fat storage will be minimized. Using these high-quality and more bio available ingredients, we are feeding the blood of the animal that, in return, is able to more effectively, efficiently, and effortlessly put on the mass and shape needed to bring attention in the show ring.

SKU: RMRCW111A

RETAIL*: \$13.21

Amino Power Show Lamb is a medicated 18% textured feed tool that combines muscle building and performance to the greatest degree. Shorter peptide chains of Canola combined with Amino Plus aids in more explosive muscle design, while the added fat helps with a smoother, bloomier, eye appeal. Using this new technology of more available amino acids, this synergistic blend of different protein sources allows for more effective, efficient, and noticeable gains that will get you to the final drive.

SKU: RMRCW131A

RETAIL*: \$14.35

Amino Power Show Goat feed is a 16% medicated, fortified, and palatable show feed that is like nothing on the market. This is a textured sweet feed that with its advanced amino acid profile you can expect greater lean muscle growth and expression that will separate you from the rest of the class. Combining a great trace vitamin and mineral pack along with ammonium chloride to help with urinary calculi, Amino Power will make for a more athletic and powerfully designed goat. This is done using a special combination of higher quality and more digestible protein ingredients that is more bio available.
